INTRODUCTION

Ikigai Technology Pvt Ltd, established on July 26, 2020, in Kathmandu, Nepal, is committed to making technology accessible and user-friendly for all. Our mission is to bridge the gap between complex IT solutions and everyday needs by developing intuitive websites, mobile apps, and custom software that cater to both beginners and tech-savvy users alike. We believe technology should simplify life, not complicate it.

In just a few years, we've expanded into a full-service IT solutions provider, offering web and mobile development, custom software, UI/UX design, event management, and end-to-end design and printing services. With a diverse, passionate team of 13 professionals bringing over 70 years of combined experience, we've successfully served 20+ clients, delivering 50+ projects that are tailored to solve real-world problems and enhance digital presence.

Our commitment to simplicity, innovation, and quality has earned us a trusted reputation. We strive to empower businesses by providing creative, accessible technology solutions that drive growth and streamline operations.

IKIGAI
TECHNOLOGY

VISION

Our vision is to make the world an easier place to live through technology. We develop simple and creative interfaces for web and mobile solutions, ensuring accessibility for all users.

CORE VALUES

- Innovation
- Simplicity
- Integrity
- Technology for Everyone

MISSION

Our mission is to create user-friendly products that solve societal problems, focusing on a wide range of users, from laymen to tech-savvy individuals.

SERVICES

- **Web and Mobile Development**
  We specialize in creating user-friendly web and mobile solutions through a structured Software Development Life Cycle (SDLC). Weensure feasibility, deliver polished designs, and provide scalable systems with ongoing maintenance services.

- **Custom Solutions and Consulting**
  We offer tailored technology solutions to solve unique business challenges, guiding clients through identifying pain points and developing custom software.

- **Design and User Experience**
  Our holistic design services include impactful graphics for social media, UI/UX services, and custom designs for digital marketing, creating visually engaging platforms.

- **Creative and Event Services**
  We manage all aspects of digital and hybrid event planning, including logistics, branding, and post-event documentation. Additionally, we offer independent design and printing services for custom materials.

WHY CHOOSE US

- **End-to-End Services:**
  We provide comprehensive solutions for development, event management, and design.
- **Client-Centric Approach:**
  Tailored solutions that focus on meeting client-specific needs and usability.
- **Expertise and Experience:**
  A team with 54+ years of combined experience.
- **Innovation with Social Impact:**
  Technology solutions that benefit both businesses and society.
